PROFILE SUMMARY

Creative and detail-oriented Computer Science Engineering student with hands-on experience in SEO content writing, digital storytelling, and AI-assisted content development. Passionate about education technology, workforce development, and creating accessible, engaging written content for diverse audiences. Proven ability to write compelling blogs, website copy, and research-driven articles aligned with brand voice. Familiar with AI content tools including ChatGPT, prompt engineering, and digital platforms. Multilingual communicator with strong research, editing, and organizational skills.

EDUCATION

Vellore Institute of Technology Sept 2023 – May 2027

Bachelor of Technology (Computer Science Engineering) | CGPA – 6.0 Bhopal, India

Kendriya Vidyalaya No 1, Jamnagar March 2021 – 2023

Class XII – 80% | Class X – 81% Jamnagar, Gujarat

EXPERIENCE

SEO Content Writer Feb 2025 – May 2025

Freelance | MishraX LLP Law Firm, California (Remote)

- Wrote SEO-optimized legal content including practice area pages, blogs, and attorney bios targeting US audiences and local search keywords.
 - Conducted keyword research using legal SEO best practices to improve organic search rankings for competitive legal terms (family injury, workers injury, employment litigation, and deportation defence).
 - Collaborated with the firm's marketing team to align content with brand voice, tone consistency, and US legal standards.
 - Adapted writing style for different audiences including clients, legal professionals, and general web visitors.
 - Proofread and edited content for grammar, clarity, and tone before publication.
-

SKILLS SUMMARY

- Proofreading & editing, brand voice alignment, audience-specific writing (students, educators, employers)

Technology & Tools

- AI Content Tools: ChatGPT, Prompt Engineering (hands-on via CS Engineering coursework and projects)
- Microsoft Office Suite (Word, PowerPoint), Google Workspace (Docs, Sheets, Slides, Drive)
- Video editing: Final Cut Pro, Microsoft Clipchamp, DaVinci Resolve
- Web technologies: HTML, CSS, JavaScript, Flutter, Firebase

Languages & Communication

- Fluent in English, Hindi, Tamil, Gujarati — strong multilingual communication and audience adaptability

Soft Skills

- Creative storytelling, attention to detail, time management, team collaboration, critical thinking, adaptability

PROJECTS

1. Pollution Measuring Website Jan 2025 – April 2025

Flutter, Firebase, OpenWeatherMap API

Developed a real-time pollution tracking website with a focus on user-friendly interface and clear data presentation. Wrote all UI text, labels, and informational content for the platform ensuring clarity and accessibility for general audiences.

2. Hospital Tracking Web App June 2024 – March 2025

HTML, JavaScript, CSS, Globe Earth Map API

Built a hospital tracking web application with location services and real-time availability. Responsible for all written content on the platform including user-facing instructions, interface copy, and help documentation to ensure an accessible, clear experience for diverse users.

3. Pseudo X-RAY Thermal Scanner (AI Project) Oct 2025 – Ongoing

Arduino, Firebase, AI Integration

Developing an AI-integrated security system using thermal scanning and machine learning. Leveraging AI tools and prompt engineering for threat classification and data interpretation, applying knowledge of AI-driven solutions directly relevant to AI-powered workforce and educational platforms.

4. Ultrasonic Automatic Car

Aug 2022 – Dec 2022

Arduino, Ultrasonic Sensor, Arduino IDE, MOSFETs, C++

Built an ultrasonic automatic car using Arduino ultrasonic sensor and Arduino IDE chip with MOSFETs. Programmed using C++ language on Arduino command platform (Arduino CLI) for autonomous obstacle detection and navigation.

ACHIEVEMENTS

- Top scorer in Python, Java Programming and DSA courses at college.
- NPTEL Elite scorer in Blockchain and its Applications course.
- Participated in Codeverse Hackathon — collaborative problem solving and project delivery under deadlines.
- Google GDG On Campus member — exposure to tech community building, event content, and digital outreach.

CERTIFICATIONS

- Google IT Solutions Course Certification
- NPTEL Blockchain and Applications Certificate
- C++ Udemy Certification
- Upskill Java Programming Certificate
- Google GDG On Campus Certificate
